Composite Decking

NO STAINING • NO SPLITTING • NO SLIPPING

No more painstaking cleaning and staining. No more splintering and splitting. No more watching your decking look more tired every year.

Our stylish range of composite decking is available in hollow or solid planks with various finishes including brushed, wood grain, fine ribbed or spaced ribbed.

Unlike many other composite decking ranges, our planks are not foiled (wrapped in a very thin finish) but are coloured throughout with the pattern etched into the composite. This high quality design gives our decking a number of advantages over other composites.

All of the designs feature a slip resistant surface to maximise safety and make them useable in commercial applications.

With invisible fixings thanks to a three clip fixing system and double sided planks which enable patterns and borders to easily be incorporated into design, you can really make a statement with a stylish deck in your garden.

Available colours

Graphite

Steel

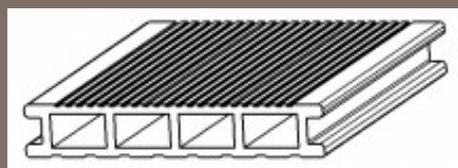

Wood

Styles

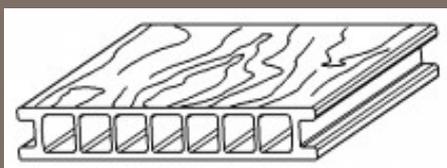

Each deck board is double sided with a different pattern on the reverse so feature areas can be created by simply flipping over panels.

Hollow boards are 162mm wide, 28mm thick. Ribbed boards are available in 4 and 6m lengths. Woodgrain boards are available in 4m lengths only.

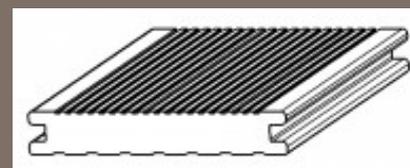

Solid boards are 4m long, 140mm wide and 23mm thick and are recommended for decks that will be permanently in contact with water e.g. river access points.

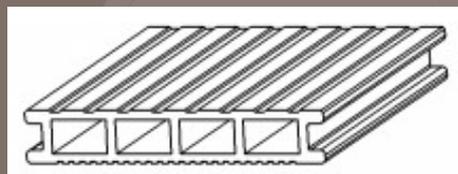

Fine ribbed hollow board

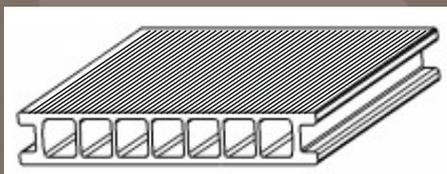

Woodgrain hollow board

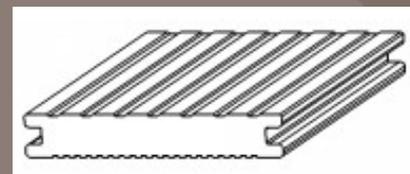

Fine ribbed solid board

Space ribbed hollow board

Brushed hollow board

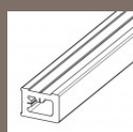

Space ribbed solid board

Accessories

To finish the edges of your decking there is a 76mm tall, 10mm thick colour match composite skirting trim. This can be fitted in rows to achieve greater heights for raised decks.

To protect the noses of steps there is a 76x37mm colour match aluminium angle trim. This can also be used at edges of the deck instead of the skirting trim, particularly if deck boards are used vertically.

4m fixing beam (35x48.5mm) used to fix decking onto concrete base, raising deck 35 or 48.5mm. Space every 500mm with an additional beam 200mm from first & last.

Starter & finishing clip placed at the start & end of each run and along the first & last row on every beam (max 500mm apart)

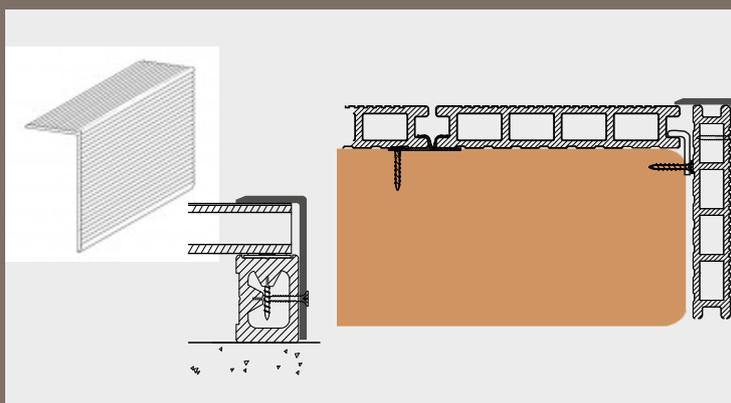

Standard clip placed on every beam (at max every 500mm)

Butting clip placed where two beams join in a run

4m colour match composite skirting trim - 76mm tall. Used to finish edge of deck, covering edge of boards and fixing beam

4m colour match aluminium 'L' shape profile - 76x37mm. Used to finish edge of deck, covering edge of boards and area below. Ideal for step noses or where decking has been installed vertically

Artificial Grass

NO MOWING • NO MUD • NO MESS

No slippery, muddy lawns, no dead patches, no weeding, no wasting hours every weekend with the lawnmower & the strimmer.

Our wide range of artificial grass has an option for everyone. From hard wearing turfs for busy gardens and sports fields, to soft, luxurious lawns.

Artificial grass looks great, is easy to clean and requires virtually no maintenance. An occasional wash down with a hose and a brush over with a semi-stiff broom to 'fluff' up any areas of pile squashed by furniture or heavy traffic will keep your grass in perfect condition.

Our Range

We only offer high quality products manufactured to exacting standards and backed by an 8 year worldwide UV guarantee against fading. All our grass products are completely safe for pets and are easily cleaned with any pet mess or spillages quickly removed with water and a mild detergent.

What makes our grass range unique is the design of the pile. By using strands of different lengths and thicknesses, just like a natural lawn, we have achieved a closer look and feel to real grass.

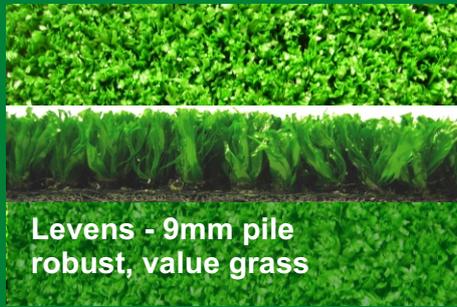

Rolls are cut to length (in whole metres) and are either 2 or 4m wide. Joins can be made using a jointing tape underneath the grass and a specialist adhesive to ensure the join does not open up even with heavy use.

Prices vary from £5.15 to £30.32 per square metre. Visit our showroom or call our sales team with the size of the area you want to cover and we can provide you with information on the most suitable options for your usage.

Stourhead - 30mm pile
rich green, natural grass

Levens - 9mm pile
robust, value grass

Abbotsbury - 30mm pile
dark, bristly grass

Rousham - 40mm pile
soft, realistic grass

Boughton - 40mm pile
soft, vibrant grass

Tresco - 40mm pile
vibrant, semi-bristly grass

Sissinghurst - 40mm pile
realistic, semi-bristly grass

Super Tuff Grass - 20mm pile
bristly, robust, requires sand

Putting Green - 15mm pile
robust 'even' grass

Hidcote - 30mm pile
soft, bright green grass

Coleton - 40mm pile
deluxe, soft, natural grass

Chelsea - 40mm pile
deluxe, semi-bristly grass

Tuff Grass - 12mm pile
super robust grass

Coloured grass - 24mm pile
robust, designer grass

Hidden Meadow - 45mm pile
ultimate, robust grass

THE HIDDEN COSTS OF MAINTENANCE

If you mow your lawn once a week throughout Spring & Summer, paint your fence every 1-2 years and treat your decking every 2-3 years, how much do you think you spend?

Mowing: £35+ per year in tools & fuel - petrol or electric

Fencing: £33+ per year in fence paint - 3 tins every 2 years

Decking: £17+ per year in decking stain - 1 tin every 2 years

Your time: £305+ per year - 43 hours at minimum wage (of course your spare time is worth much more)

**In ten years you can save
£3,883!**

Durable Fencing

GRAVEL BOARDS • PANELS • POSTS

Our fencing range consists of posts (in-line and corner), straight edge boards, shaped boards and accessories. It can be used in three ways:

- Replace wooden fence panels, keeping existing concrete posts (and gravel boards if required)
- Use just the posts (and one board as a gravel board if required) and insert wooden fence panels
- Take advantage of the complete system of posts and boards to create a completely maintenance free fence

Benefits

- Dual faced - both sides of the products are finished the same so why not split costs with neighbours?
- Lightweight - the labour involved in carrying concrete posts and gravel boards is not required thanks to the lightweight yet durable design
- Long lifespan - will never crack, rot or rust, completely weatherproof
- Stronger than concrete and wood - because plastic is lightweight and flexible, the system has outstanding tensile strength so can withstand heavy winds with ease

There are three ranges available to suit any design style: plain coloured, matt woodgrain and deluxe woodgrain. The plain range offers all the benefits in a cost effective manner, with a simple look. The matt woodgrain range provides a more stylish look to meet the needs of a design led garden and the deluxe range can be used to create the ultimate look.

Available colours

Plain	Matt Woodgrain*	Deluxe Woodgrain
<div style="border: 1px solid black; border-radius: 15px; padding: 5px; display: inline-block; margin-bottom: 5px;">White</div> <div style="border: 1px solid black; border-radius: 15px; padding: 5px; display: inline-block; margin-bottom: 5px;">Green</div> <div style="border: 1px solid black; border-radius: 15px; padding: 5px; display: inline-block;">Brown</div>	 <p>Anthracite Chestnut Maple</p>	 <p>Black Ash Anthracite Rosewood Golden Oak</p>

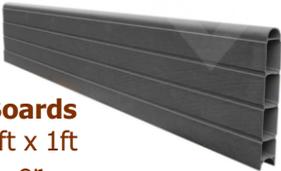

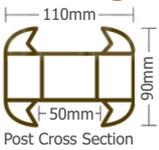

* please note that the matt woodgrain range is a coloured and textured board so the exact colour and level of detail in the texture will vary, just like wood. For a completely uniform woodgrain effect, the deluxe woodgrain range should be used

Components

Plain & Deluxe Woodgrain Fencing Range

 <p>Boards 6" x 6ft or 1ft x 6ft</p>	 <p>Posts 6ft (plain only) or 8ft Corner posts 9ft</p>	 <p>Convex Fence Top 1ft x 6ft</p> <p>Concave Fence Top 1ft x 6ft</p>	<p>Post Caps</p>  <p>Standard cap</p>  <p>Utility Strip 2134mm used to end cut down panels</p>
			 <p>Ball Gothic Acorn Fits onto a standard cap</p>

Matt Woodgrain Fencing Range

 <p>Boards 6ft x 1ft or 8ft x 1ft</p>	 <p>Posts 6ft, 7ft or 8ft posts are coloured not grained</p>  <p>Post Cross Section 110mm 90mm 50mm</p>	 <p>Utility Strip 2134mm used to end cut down panels</p>	 <p>Concave Fence Top 1ft x 6ft or 1ft x 8ft</p>  <p>Convex Fence Top 1ft x 6ft or 1ft x 8ft</p>
 <p>Bolt Down Fixing for slabs/concrete</p>	 <p>Standard cap</p>  <p>Acorn cap Fits onto standard cap</p>  <p>Ball cap</p>	 <p>Hammer In Fixing for soil</p>	 <p>Security Clip (stops panel being removed)</p>

Gates

Gates can also be constructed from our range of fencing using steel inserts to strengthen the panels and provide a sound fixing for hinges.

Matt woodgrain gates are bespoke manufactured to the size you require. Plain or deluxe woodgrain gates are designed with additional parts to be made up on site.
