Minimalist Gliding Doors (2000mm Glass Height)

Corner Post allows the door to close against a wall or window.

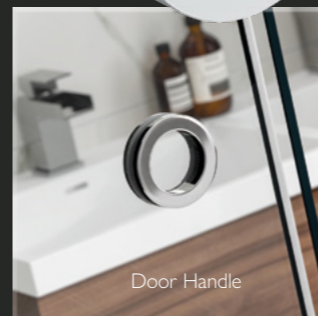

Closing seal creates an enhanced watertight seal without the need for an additional wall profile.

Smart design, precision geometry and versatility define this exciting frameless range. Incorporates the minimalistic look of a wetroom with the practical, functionality of an enclosure.

Striking Eyelet Handle echoes the contemporary design of the rollers

- Easy Clean Glass resists limescale, water spots, bacteria build up and vastly reduces the need and time taken to keep clean

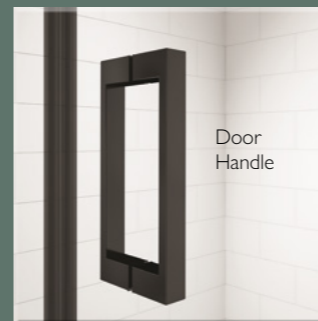

Matt Black Enclosures (2000mm Glass Height)

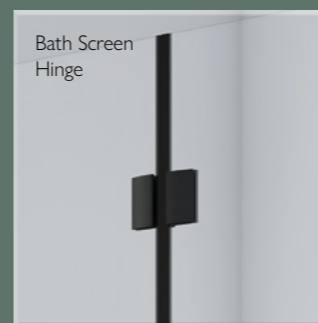

Ideal for fitting into a recess or can be used in combination with a side panel.

This black semi-frameless enclosure fuses style and elegance with practical functionality making it one of the most desirable ranges. The black colour layer is not applied to the surface like paint or plating but is integrated with the underlying aluminium so it cannot chip or peel off.

Stunning design that will last.

Silver | FIFFC
Sandstone | FIFFD

- A design classic - the “eye” of the cover opens automatically when the fan is turned on, and closes when turned off - Preventing back draughts and cold air from entering the room.
- Available to install with different ‘snap in’ modules to provide the fan with a timer or pull cord or a motion sensor.

Control Modules

12V timer	FIFVB
