

# smart panels

Create a real **impression** with your interior **walls, ceilings** and **floors...**

# Make the **smart** choice

Welcome to the world of waterproof panelling. Hard wearing, easy to install, long lasting panels to provide a high-quality finish to your walls, floors and ceilings.

Our easy-clean panels are stain & mould resistant with non-porous surfaces providing a lasting look that does not deteriorate over time like traditional choices e.g. paint that fades and marks or tiles with grout that discolours and often attracts mould.

**Smart** panels are designed and manufactured with strict quality control to make them the best in the marketplace. Thicker cell walls, improved content and the highest quality print finishes make our panels highly impact resistant, durable and long-lasting.

# smart panels

*Not all panels are the same...make the **smart** choice for your home.*

# smart click vinyl flooring

Our premium floors are the next generation covering. Fast fitting, easy maintenance, water resistant, and extremely durable. They are the **Smart** choice when comparing with tiled or laminate flooring. The unique composition of **Smart** floors adapt to the temperature of a room and whilst being resilient and impact resistant, the floor is soft

to touch, resulting in a cosy feel underfoot. **Smart** Floor is laid on a solid, even surface with no adhesive and clicks together with the latest in interlocking technology to ensure individual pieces do not pull apart. A level concrete floor or ply sheet topped wooden floor is ideal.

# PALIO TRADE

by Karndean

LUXURY VINYL FLOORING  
DESIGNED FOR THE  
TRADE TO FIT

Palio Core is designed for quick and easy installation over uneven sub-floors. Using a familiar patented click-locking mechanism combined with a rigid core-LVT construction Palio Core allows you to create an authentic, luxurious feel in no time at all, even when installing over existing floors such as ceramic tiles or wooden planks.

With a pre-attached acoustic foam backing Palio Core reduces noise transfer to rooms below by 19dB, making it perfect for installing in multi-level properties.

CETONA (Tile)

Tile size – 6.5x307x600mm  
Pack size – 1.842m<sup>2</sup> (10 tiles)

Palio  
Core

- 20 year residential guarantee • Patented click-locking mechanism

Underfloor access after installation	x	✓✓✓	x	■

**Palio Trade** by Karndean is luxury vinyl flooring in a collection of contemporary designs, available in three fitting formats: rigid core, loose lay and gluedown.

Offering the flexibility to choose a colour no matter what fitting format is required. Whether you need to limit noise transfer between floors, or gain underfloor access after installation, Palio Trade by Karndean multifit options enables you to carry the same colour throughout multiple spaces to cater for ALL your flooring requirements.

- 20 year residential guarantee
- 10 year commercial guarantee

Vulcano (Tile)

**Palio Rigid** combines a 2G™ click-locking mechanism with a rigid core construction which provides more robustness on uneven subfloors. With its acoustic foam backing, it can reduce noise transfer to rooms below by 19dB and there is no need for additional underlay.

- PATENTED CLICK-LOCKING MECHANISM
- QUICK AND EASY TO INSTALL
- NO UNDERLAY REQUIRED
- NO NEED FOR ADHESIVE
- INSTALLS OVER MOST EXISTING HARD FLOORS
- REDUCES IMPACT NOISE TRANSFER BY 19dB

**Palio LooseLay** has a friction grip backing that is designed to secure the product in place using a combination of weight and friction. If a plank or tile gets damaged, you can easily replace it without taking the whole floor up.\*

- FRICTION GRIP BACKING
- QUICK AND EASY TO INSTALL
- NO EXPANSION GAP REQUIRED
- EASY TO REPLACE
- REDUCES IMPACT NOISE TRANSFER BY 13dB

**Palio Gluedown** is supplied in pre-cut planks that are stuck to the subfloor using adhesive. Available in both 0,3mm and 0,55mm (Palio Gluedown Plus) wear layer, Palio Gluedown is suitable for both residential and commercial applications. Design strips can be added to personalise.

- PROFESSIONAL INSTALLATION REQUIRED
- ADHESIVE REQUIRED
- PERSONALISE WITH DESIGN STRIPS
- NO EXPANSION GAP REQUIRED

\* For rooms larger than 16m<sup>2</sup>, tackifier is required. Please refer to [palioflooring.com](http://palioflooring.com) for installation instructions.

Suitable for underfloor heating up to 27°C

## WOOD Options:

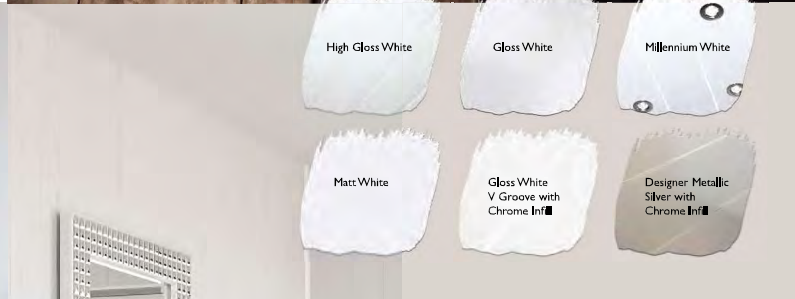

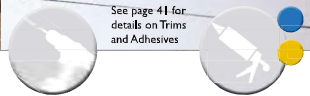

# smart ceiling

Ceilings are often forgotten when it comes to planning a room. A Smart ceiling can normally be installed for a fraction of the cost of plastering and painting whilst also providing longevity. Curved and angled ceilings can be accommodated. Recessed spotlights can also be added for a contemporary look. A panelled ceiling is both stain and mould resistant, easy to clean and will look great for years to come.

Can be fitted to ceilings using hidden screws, scan our QR code for fitting instructions

See page 41 for details on Trims and Adhesives

# Trend

A contemporary range with unique, modern styling creates a stunning, designer room or feature area. Panels are 300mm wide, 2700mm tall and join together with a stylish 'V' groove effect.

Within the shower area, run a small bead of clear / invisible silicone inside the groove.

Panels can be fitted horizontally for a different look

See page 41 for details on Trims and Adhesives

# Designer

Renovate or redecorate with these crisp, clean, sleek panels. Some of the range are available in matt finish (M), some in (G) gloss finish and in two different widths - 350mm x 2600mm x 5mm and 375mm x 2600mm x 8mm, 6 per pack. These panels are designed to butt-up and join seamlessly together and therefore do not require the joining H section.

# Leatherette

For the ultimate luxurious coverage, these textured panels create an unrivalled, elegant look. Available in a range of vibrant colours, panels are 300mm wide 2700mm tall and join together with a stylish 'V' groove effect.

# Façona

A revelation in choice and finish to match any decorative theme. Made in the UK using the very latest in state-of-the-art high definition digital printing.

# Natural Textures

This unique range of textured finish, solid panels are impact resistant making them a practical choice where more durability is required. The panels are 1350x295mm, 9mm thick and class 1 fire rated.

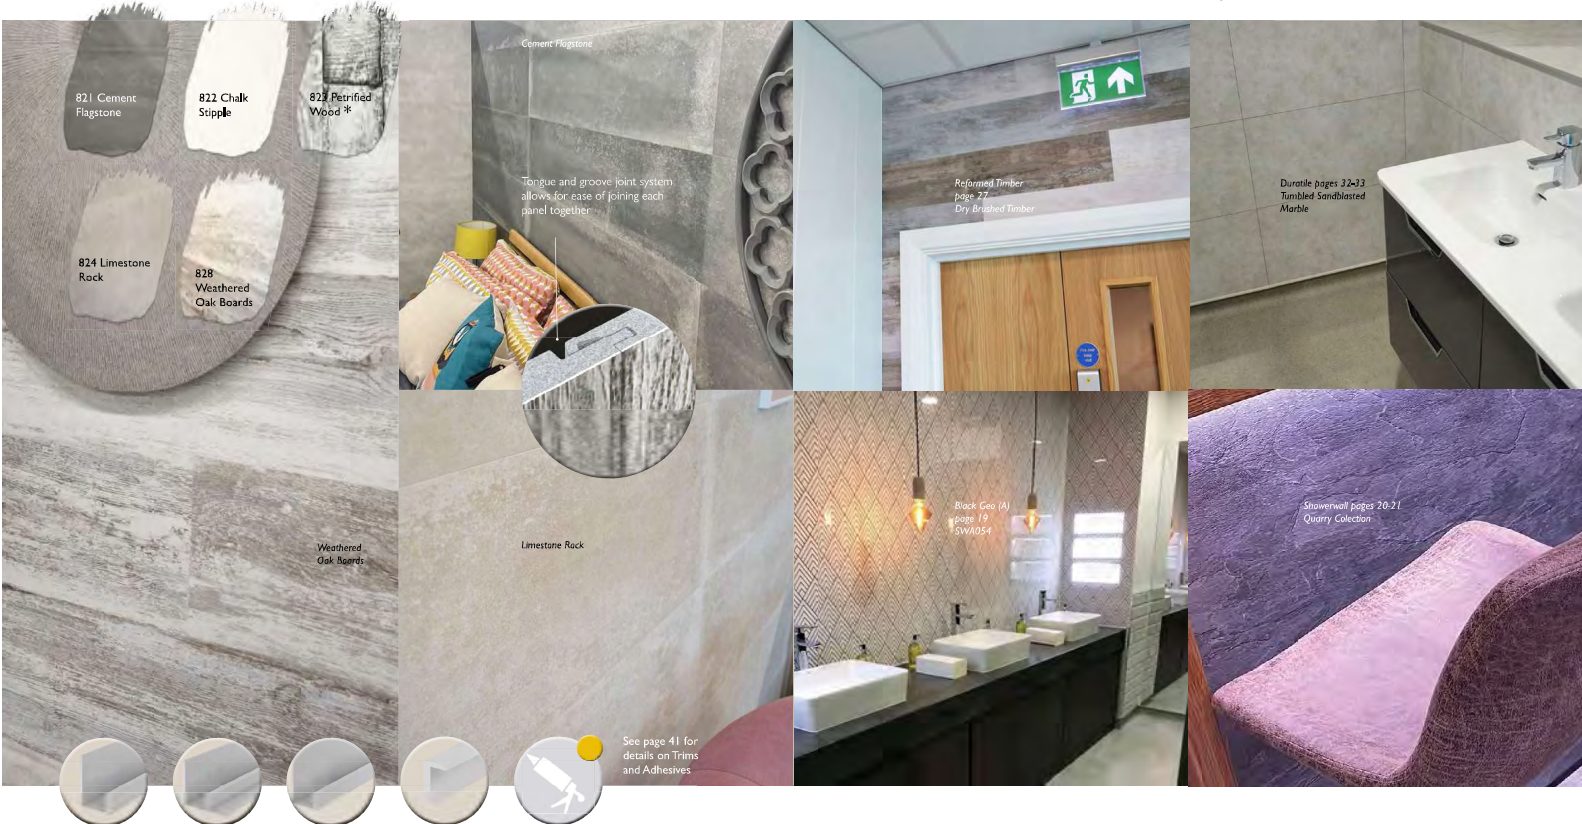

8 Panels per pack covering 3,186m<sup>2</sup>

\* 823 Petrified Wood 2700 x 295 plank - available to buy singly

# smart panels commercial

Our wall and ceiling panels look equally at home in commercial settings, offering all of the practical benefits in terms of ease of installation, plus in some cases genuine toughness to withstand the demands of different environments / high traffic areas. Ask our sales team for more information.

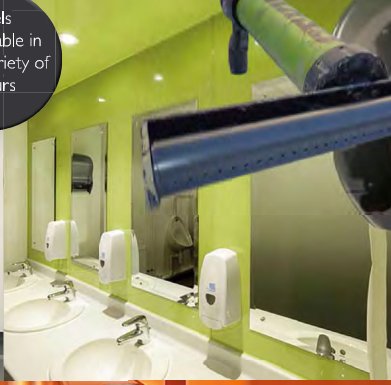

# Hygienic Sheeting

Hygienic wall cladding is designed to be easy to clean, which is why it's so useful for areas where hygiene is important, such as a kitchen, laboratory, or lavatory. Surfaces can be easily and quickly cleaned, potentially benefiting a kitchen's hygiene rating. It is also durable, impact resistant and long-lasting, which is especially useful for gyms and sports halls where these features are crucial. It's even resistant to chemicals, which is vital for hospitals and laboratories.

Panels are available in a wide variety of colours

For commercial applications we have equipment to hire or buy that will facilitate the best finish and fastest application.

We are Experts in the industry's leading aluminium composite material (ACM). It is the flattest panel on the market, an excellent alternative to other strong materials such as Plywood, PVC, or Coroplast. It is rustproof, rot proof, waterproof, and chemically resistant.

improve infection control with hygienic wall cladding

Pressure roller for use with contact adhesive PROLB

See page 41 for details on Trims and Adhesives

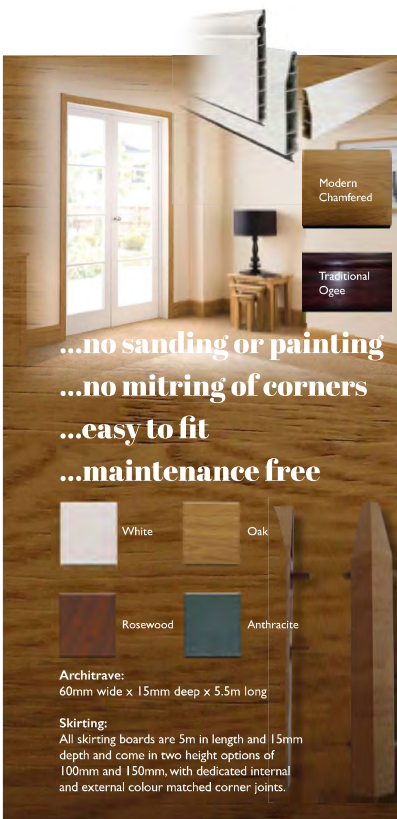

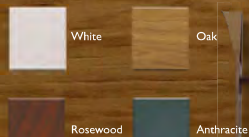

# Skirting & Architraves

No more time-consuming sanding, priming or painting. Save time and money on installation whilst ending up with a better look that outlasts the traditional wooden alternatives.

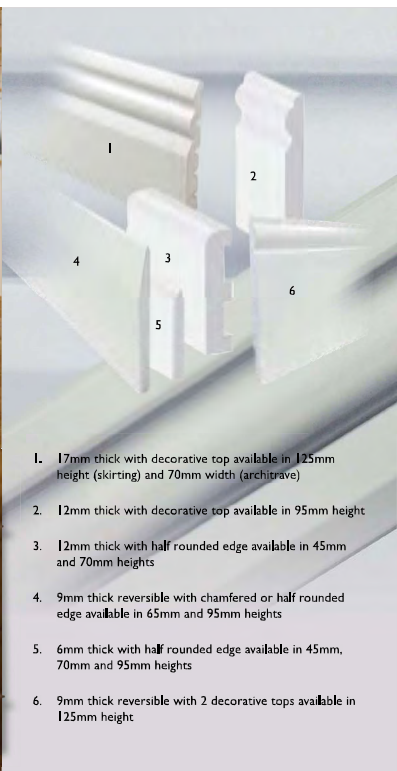

For real ease of fitting our Wood Grain range comes with internal and external corners so no need to mitre!

...no sanding or painting  
...no mitring of corners  
...easy to fit  
...maintenance free

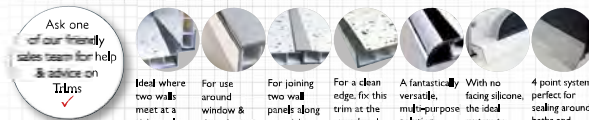

- 17mm thick with decorative top available in 125mm height (skirting) and 70mm width (architrave)
- 12mm thick with decorative top available in 95mm height
- 12mm thick with half rounded edge available in 45mm and 70mm heights
- 9mm thick reversible with chamfered or half rounded edge available in 65mm and 95mm heights
- 6mm thick with half rounded edge available in 45mm, 70mm and 95mm heights
- 9mm thick reversible with 2 decorative tops available in 125mm height

## Trims

Our bathroom wall trims keep things neat and convenient. Easy to fit and everything remains waterproof and easy to clean.

Ideal where two walls meet at a right angle.

For use around window & door frames.

For joining two wall panels along a straight vertical plane.

For a clean edge, fix this trim at the start / end of a run of panels.

A fantastically versatile, multi-purpose solution.

With no facing silicone, the ideal system to prevent leaks in wet areas.

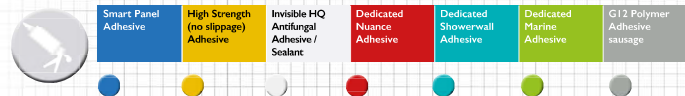

4 part system perfect for sealing around baths and showers.

## Adhesives

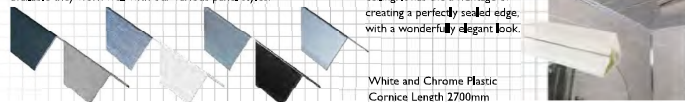

Using the correct adhesive is vital. Certain adhesive chemicals can react with the particles in the panels and cause a discolouration. The adhesive must allow the panels to expand and contract with temperature changes whilst not allowing too much movement which would affect the joints.

## Finishing Touches

Angles are perfect for use around window frames when installed with our PVC cladding. They are of a high quality finish and rigid construction, with a wide range of colours available. They work well with our various panel styles.

Our bathroom covering creates an elegant moulding to a corner. These are typically seen where the bathroom wall panel meets a ceiling. It has the advantage of creating a perfectly sealed edge with a wonderfully elegant look.

Colour Switch Disclaimer: The colour swatches are for illustrative guidance and we highly recommend viewing the actual sample panels in our showroom. Please note: Swatches must be checked for imperfections and consistency of colour prior to fitting. Once installed, no liability will be accepted.

# Planning & Specifying

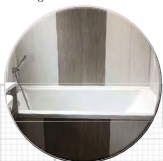

Use the grid below to sketch out a floor plan of the space you are looking to cover and using the list of contents on page 43 - indicate all the ranges you are most interested in.

To help us to give you an accurate estimate - please indicate all window dimensions on page 43 drawings

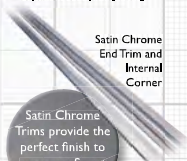

## Floor Plan:

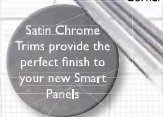

We advise the application of a waterproof coating behind the boards when panelling showers, wetrooms, bathrooms and kitchen walls

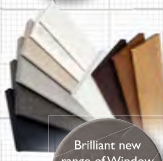

When planning your wall panels, think about a feature wall

Satin Chrome End Trim and Internal Corner
